Incumbent Worker Training

Effective Date: November 5, 2015; Revision #3 – September 23, 2021

Policy Statement:

The Capital Region Workforce Development Board (WDB) seeks to ensure that employer-based training efforts are an available resource within the region to assist both businesses and their employees in remaining healthy and competitive.

Background:

The WIOA legislation allows that up to 20% of each year's base adult and dislocated worker formula funds can be used to provide skill enhancement and training for the existing workforce. On November 5, 2015, the Capital Region WDB authorized that this full percentage be made available for such activities locally.

Purpose and Goals:

The goal of the policy is to be more responsive to the consideration of employers as customers of the workforce system. Incumbent Worker Training is structured to meet employer and business training objectives by enhancing the skills of existing employees resulting in increased employee productivity, layoff aversion, or company growth. Likewise, current workers develop new, higher level skills that benefit their employers, facilitate transition between jobs, and enhance their chances for retention and their potential for increased earnings. This can also have the benefit of creating employment opportunities and prospects of self-sufficiency for entry-level workers.

Funds are to be made available subject to availability through an application process.

Policy Considerations:

A. Employer Eligibility and Requirements

4. Must demonstrate linkages of the proposed training activity to demand occupations and/or locally-targeted industries.
